

## WILL CONTINUE THE STRUGGLE

Czar Sounds The Key Note To Russia's Plans For The Future Fighting.

## WILL NOT GIVE UP HOPE AS YET

Calls Upon His Soldiers And Sailors To Regain Prestige Lost By The Capture Of Port Arthur By The Japs.

[SPECIAL BY SCRIPTS-M'RAE.]  
St. Petersburg, Jan. 14.—Russia is not to give up hopes of ending the war with a successful issue for Russia. The czar has sounded the keynote of the policy which is to be pursued in the coming months of the contest in his address to the soldiers and sailors of his armies on the fall of Port Arthur. Not only has he done this but it is also said he has personally subscribed large sums of money for the equipment of more vessels to be sent to the east to again try and wrest the sovereignty of the eastern waters from the Japanese. The czar's expressions point clearly to the continuation of the conflict indefinitely and the hope of an ultimate victory for Russia. The czar today issued the following address to the army: "Port Arthur has passed into the hands of the enemy after a struggle lasting eleven months, during seven of which the brave garrison was isolated without hope. Nevertheless they sustained the siege of hardships, privations and mortal tortures without complaint, determined that the enemy would gain nothing without paying dearly. With a handful of men we withstood the enemy's furious attacks. My brave soldiers and sailors, let not this sorrow discourage you. Our enemy is brave and strong, and it is extremely difficult to sustain a struggle at a distance of ten thousand versts. But Russia is great and powerful. We are greatly grieved by the lack of success and the painful losses, but let us not abandon courage. It is in a sorrowful time, such as this, that the power of Russia renews itself. I am confident that the hour of victory is coming and that God will bless the dear army and navy in their efforts to crush the enemy and sustain the honor and glory of their fatherland." The Japanese press is sharply criticizing France for permitting the Russian second Pacific squadron to make use of Madagascar as a base of operations. The Asahi today says: "It is no longer possible to overlook the French non-observance of neutrality, nor her disregard for her obligations as a neutral nation." General Stoessel has arrived at Nagasaki today on the Japanese transport Kanakuru. Gov. Arakawa, with the chief officials of the port went aboard the transport and received Gen. Stoessel and his wife and staff, who were shortly transferred to the land. Stoessel was attired in a gray military overcoat and wore his sword. He slowly wended his way up the hill to a bungalow where he will be quartered. Dozens of Russian officers saluted their late commander. A London dispatch says the Rome correspondent of the Exchange Telegraph wires private telegrams received at Rome from St. Petersburg which assert that Kuropatkin will probably be recalled on account of his ill health.

## SMOOT INQUIRY BRINGS OUT FACTS

Mormons Are Not Such Bad People After All When Truth Is Sifted Down.

[SPECIAL BY SCRIPTS-M'RAE.]  
Washington, Jan. 14.—In the Smoot hearing this morning J. W. N. Whitcomb, an attorney at Provo, Utah, testified as to the political conditions of Utah. No effort is made by the church, he said, to restrain the political liberties of the people generally or of individuals, but it is claimed the right to receive the time of men who held important church offices. He thought the decided sentiment of the Mormon people was hostile to polygamy. The women went into polygamy because they thought plural marriage a religious duty.

## ARRESTED BANKER OF DEFUNCT BANK

Embezzlement Charged Against a North Liberty, Indiana, Banker.

[SPECIAL BY SCRIPTS-M'RAE.]  
South Bend, Ind., Jan. 14.—J. W. Brooke, the owner of the defunct North Liberty Citizens' bank, was arrested this morning at the instance of his creditors and charged with embezzlement. Brooke had agreed to make good the claims of the creditors to the extent of thirty-five hundred dollars, but it was reported the shortage had been greatly increased. Vanity and Self-Improvement. Nothing is so common and barbarous as vanity, and nothing so encouraging as self-improvement.

Sammy—Them ghost stories you tell me make me see awful things at times!

## AGED HERO DIED IN POOR HOUSE

Sad Ending For One of the First Life Savers on Lake Michigan.

Kenosha, Wis., Jan. 14.—Notwithstanding the fact that he had been personally thanked by a president of the United States for bravery as a lifesaver, Jacob Olson, fifty years a sailor on the great lakes and the first enlisted member of the Kenosha lifesaving crew, died alone and in poverty at the poor farm of this city. He was 80 years of age, and he had been a charge on the city for the past ten years. He had no relatives in this vicinity, and he will probably be buried by the city. An effort will be made to have the lifesaving crew give him the final honors. Olson was enlisted in the lifesaving crew here in 1879, and the acts for which he was particularly commended by the president and congress were the rescue of six men from the water-logged schooner Royce, the rescue of ten men and a woman from the sinking steamer Rockaway in 1883, the rescue of the crew of the steamer Solon H. Johnson in 1887.

## MANY CASUALTIES ARE REPORTED

Russians Make Official Announcement of Their Losses for the Past Month.

[SPECIAL BY SCRIPTS-M'RAE.]  
St. Petersburg, Jan. 14.—The Russian casualties during the past fortnight have been: Killed, seven officers and 133 men; wounded, forty-two officers and 849 men and 40 missing. The list of casualties probably includes those in the fighting at Khos and Newchwang as well as those at the Shangkai river, where several minor engagements are reported.

## BOLD THIEVES ROBBED TREASURY

Crack the Vault at the County House at Fulton County, Iowa.

Toledo, O., Jan. 14.—The vault of the county treasury at Wauson in Fulton county was blown up by four cracksmen early this morning. They secured a sum estimated at five to ten thousand dollars.

Safe Robbers Cut \$5,000.  
Toledo, Ohio, Jan. 14.—Safe robbers who wrecked the safe in the office of the county treasurer at Wauseon, Ohio, secured \$5,000 of the county funds. The vault was blown to pieces by dynamite.

Hindoo Tribesmen Wage War.  
Calcutta, Jan. 14.—Chiefs of the Dir and Nawagal tribes have declared war against each other and fighting has begun. The Nawagal have won the first engagement and have captured a Dir fort.

Mail Steamer in Collision.  
Holyhead, Wales, Jan. 14.—The Irish-mail boat Connaught collided with the steamer Hedley from Liverpool. The latter was seriously damaged and was grounded to avoid her sinking.

## TRADE REPORTS ARE GRATIFYING

Activity in All Branches Orders From the Country Cheer the Hearts of Chicago Wholesalers—Grain Shipments Show Increase Over Last Year.

Chicago, Jan. 14.—The weekly review of Chicago trade, published by R. G. Dun & Co., says: "Increased failures at this time are not a cause of apprehension. The rigidity of January settlements invariably enforces the elimination of those traders whose position discloses inherent weakness, and the commercial atmosphere thereby is so much clarified. Financial conditions generally exhibit ease and a favorable attitude toward industrial expansion, money being ample and the borrowing rate moderate. "Trade operations present gratifying developments, increased activity being more distinct in both production and distribution. Breadstuffs were in good demand and a slight gain in values was helped by the continued scarcity of milling wheat. Manufacturers gradually augmented the forces employed and have drawn more largely upon the capacity of their plants. "Material in Good Supply. Raw material is in good supply for known requirements, while cost and wages present a more settled basis for determining new undertakings. There also is a satisfactory tone to the fresh demands, the latter having a wider effect among factories, especially those which consume great quantities of metals and wool. "Iron and steel quotations have a tendency to move upward, commitments aggregating a heavy tonnage, while plants are more freely utilized and with easier assurance than a year ago. Wood-working branches have entered upon pronounced activity for the season, and sharp revival is seen in car building, machinery and shipyards. Other lines feeling improvement are furniture, carriages, brass goods and bicycles. Railway supplies are liberally bought, much of this business being marked for urgent completion. "Lumber in Demand. Lumber of all kinds is needed, hard woods moving freely and railroad and building requirements extending. Receipts, 23,331,000 feet, compare with 15,516,000 feet a year ago, and show a steady continuance of the lately increased supplies. "Freight earnings of Western roads exceed those of the corresponding period last year, notwithstanding interferences of snowstorms and below zero temperatures. "Retail trade maintained a satisfactory average in necessities. Wholesale dealings in the staple lines exhibit the opening up of further activity in dry goods, footwear and clothing, the orders coming in for spring deliveries indicating that traveling salesmen are meeting with success in their efforts. "Groceries and collateral lines have been in rising demand, and hardware shipments exceed those a year ago."

## WOULD ASCERTAIN THE COAL SUPPLY

Engineers Plan To Discover Just How Long Illinois Fields Will Last.

Chicago, Jan. 14.—Whether Illinois coal fields will be exhausted in fifty years is a subject that will be taken up by the Western Society of Engineers at a meeting soon. It is expected the society will recommend a geological survey of the state. "This survey has been recommended by Gov. Deneen," said Secretary J. H. Gardner, "and within the next few days I will send out literature to each of the 300 members of the society in the state to ascertain their views. No doubt the proposed survey will be approved." "It is foolish," says A. Bement of the society, "to assume that the supply of coal in Illinois is inexhaustible. At the present rate and unless new mines are discovered the supply is likely to give out within fifty years. For the year ending next June the coal taken from Illinois fields will approximate 38,830,000 tons, and based on the yield in the past the yield in fifty years from now must be 240,000,000 tons annually. A survey is needed to ascertain the present limitations and to develop new fields."

## COLD WAVE HAS COME TO CHICAGO

Bitter Cold Is Experienced by the Windy City—Winnipeg Colder.

[SPECIAL BY SCRIPTS-M'RAE.]  
Chicago, Jan. 14.—The cold wave which has slowly advanced from the northwest, registering a temperature of five below today, with the prospect of a continuance of zero weather for at least twenty-four hours. The zero line extends today to southern Illinois, Missouri and Indian Territory. At Winnipeg it is 30 below; at Charles City, Ia., 20 below.

## BRODIE L. DUKE TAKES THE STAND

Tobacco King Appears in Court in New York City—Must Wait Examination.

[SPECIAL BY SCRIPTS-M'RAE.]  
New York, Jan. 14.—Brodie L. Duke, the rich tobacco manufacturer, who was recently married to Alice Webb of Chicago, which resulted in his commitment to a sanitarium, was brought into the supreme court of Brooklyn Friday on a writ of habeas corpus and after a hearing, was sent to the Long Island home until Thursday next, when he will be examined by a commission appointed to inquire into his sanity.

Gag and Rob Man and Wife.  
Elkhart, Ind., Jan. 14.—Four masked burglars broke into the home of John Thornton, a wealthy retired farmer in this city, bound and gagged Mr. and Mrs. Thornton, stole \$200 and escaped. Buy it in Janesville.

## HILL ADVISES GREAT CAUTION

Railway Magnate Talks Of The Effect Of Legislation On The Business Interests.

## SAYS THE GROWERS WOULD SUFFER

Farmers and Planters Are In No Condition To Bear The Burdens That Poor Laws Might Bring About If Passed.

Washington, Jan. 14.—"I wish to emphasize this particular point in regard to railroad rate legislation at this time, and only this. It is a very delicate period in the business history of this country to tamper with legislation affecting the great common carriers." This was the reply of James J. Hill, president of the Northern Pacific railroad, to a request for a statement in regard to the propositions now before congress. "I do not care to go into details of any proposed railroad legislation just now," said Mr. Hill, "but I do wish to say that legislators should proceed with the utmost care. It is a very important question, but it is a critical time to discuss it, or, rather, to criticize any new federal regulations for the common carriers. The country is short \$240,000,000 on the two great American crops—cotton and wheat. "While there has been a tremendous crop of cotton, the price has so dropped that it will bring less money into the country and put less money in circulation than if it were much smaller. Meanwhile the inability of the farmers to raise wheat for export, to say nothing of consumption in this country, has also affected the situation this year, so far as the income from the great crops is concerned. It is not a time to disturb business, and especially the business of the farmers. "Does this mean that you and your friends will oppose any kind of railroad legislation at this time?" was asked. "I am opposed to rebates. "I will not only not oppose, but I will welcome any legislation that will stop every single railroad rebate and I know of no railroad man in this country who will not do the same. This is the greatest railroad evil of the hour and the one problem that needs immediate legislation, or rather more stringent legislation than is now on the statute books. "Will the great shippers oppose this?" "Of course they will oppose it. As the matter now stands and has stood for a number of years, the practice of rebates is not only not opposed, but I will welcome any legislation that will stop every single railroad rebate and I know of no railroad man in this country who will not do the same. This is the greatest railroad evil of the hour and the one problem that needs immediate legislation, or rather more stringent legislation than is now on the statute books. "Will the great shippers oppose this?" "Of course they will oppose it. As the matter now stands and has stood for a number of years, the practice of rebates is not only not opposed, but I will welcome any legislation that will stop every single railroad rebate and I know of no railroad man in this country who will not do the same. This is the greatest railroad evil of the hour and the one problem that needs immediate legislation, or rather more stringent legislation than is now on the statute books. "Will the great shippers oppose this?" "Of course they will oppose it. ## RARE STORY OF THE GREAT CANAL

MISS HUMPHREY WRITES AN ILLUSTRATED LETTER TODAY.

### SHOWS WORK BEING DONE

Ten Years May Not See the Great Canal Completed—Millions To Be Spent.

Very little construction work is being done, and will not be done for some time. Great bodies move slowly; no this great undertaking must have a large amount of preliminary work done before the actual

in area as Lake Bohio, the latter covering 31 square miles, while the former will cover but 5,000 acres. The water in this lake will furnish the motive power for operating the locks and lighting the canal at night.

The Old Work

The French company under De Lesseps did some excavating along the entire route but more especially at the Culabra cut, where the greatest excavation will come. This has a depth of 270 feet and extends over ten miles of surface. The French excavated 80 feet, leaving 190 feet for the United States to complete. The excavating is done by making shelves or benches the length of the cut which are 30 feet wide and 10 feet deep. Railroad tracks are laid along these benches and the rock and earth is hauled away over these tracks by small engines and dump

## OAK HILL CEMETERY ASSOCIATION MET

At the City Hall Last Evening and Approved Reports of Officers—Volney Atwood Made President.

Stockholders in the Oak Hill Cemetery association assembled for their annual session at the city hall last evening, the meeting being called by President Volney Atwood and W. F. Carle as secretary. Reports for the year 1904 showed a total of 138 burials and an expenditure of \$3,305.40 for improvements and care of the grounds. On Jan. 1, 1905, the sum of \$1,632.08 remained in the treasury. On a motion of George S. Parker a vote of thanks was extended to the trustees for their good work during the year past. Officers elected were:

President—Volney Atwood.  
Secretary—W. F. Carle.  
Treasurer—S. C. Burnham.  
Ex. committee—W. T. Sherer and W. J. Skelly.  
Trustees for 3 years—S. C. Burnham, W. T. Sherer and W. F. Carle.

## WANDERED HOURS IN THE CHILL NIGHT

Sixty-Year-Old Ann Butler Finally Located by Police After Three Hours' Search

Ann Butler, aged sixty years, and said to be mentally unbalanced, donned a pair of slippers and a light shawl about seven o'clock last evening and left the home of Thomas Whalen, No. 1 Arch street, stating that she would be gone but a few minutes. When an hour or more had passed and she did not return the Whalen family became alarmed and after making a fruitless search in the neighborhood, communicated with the police. It was fully three hours afterward when she was located at the home of Albert Katzmak, 105 Ravine street, whither she had finally sought refuge in her wanderings. Officers drove out there and took her back to the Whalen home. The aged woman suffered no serious results from her exposure in the chill night.

## SUPT. COWAN IS ABOUT TO RETIRE

Has Been in Service of Northwestern Road for the Past Forty-One Years.

R. A. Cowan, superintendent of the Madison division of the C. & N. W. Ry. for about twenty years, has notified the company of his intention to retire, and hopes to see his successor appointed some time this month. Mr. Cowan has been in the harness for about 41 years and feels that he has earned a rest. Few men in the entire service hold the confidence of both company and men more completely than Mr. Cowan, and the regret over the severance of his official ties will be great.

Your persistent, annoying cough will disappear if you use Piso's Cure. 25c.

## Town Talk

"In my opinion," said the man with a good story at his tongue's end all the time, "the pinning of a sign on a person's back has always been a poor sort of a joke, and George Peck's Bad Boy 'Kick Me' sign has been a much abused means of getting the laugh on people, but a joke like that was perpetrated yesterday that makes me laugh whenever it comes to my mind. There is a young man who delivers for a West Milwaukee street grocery firm, apparently much struck on a young lady of his acquaintance, and to show his chivalric spirit each noon he has been in the habit of waiting for his much adored to pass on her way home so that he may drive her to her destination. This has been going on for some time and, though everybody jollied the pair about it, no damper was put upon their affection for each other. Somebody yesterday made them the laughing stock of the large number of people from the offices and shops of the city going on their way home to dinner. As usual the young man waited for the one he is enamored of and as usual they rode home, but on the back of the wagon was posted a large white card with the words printed in blue ink, 'We Are in Love.'"

A CARD.

We, the undersigned, do hereby agree to refund the money on a 50 cent bottle of Greene's warranted Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 25-cent bottle to prove satisfactory or money refunded.

J. P. Baker, Geo. E. King & Co., S. P. Holmström, Smith's Pharmacy, People's Drug Co., E. E. Ransom & Co., Janesville, Wis.

A Machine for Women.

should be the best obtainable. The Singer sewing machine is acknowledged the lightest running, most durable and convenient of any. Look for the red S. 14 Corn Exchange block, Janesville, Wis.

It makes no difference how many medicines have failed to cure you, if you are troubled with headache, constipation, kidney or liver troubles, Hollister's Rocky Mountain Tea will make you well. Smith Drug Co.

Mrs. Anna's Famous Pancake Flour made from the three great stalks of life: wheat, corn and rice.

Beautiful eyes and handsome face are eloquent commendations. Bright eyes are windows to a woman's heart. Hollister's Rocky Mountain Tea makes bright eyes. 35 cents, tea or tablets. Smith Drug Co.

To have those beautiful brown eyes, eat breakfast, lunch and supper with Mrs. Anna's Pancake Flour. All grocers.

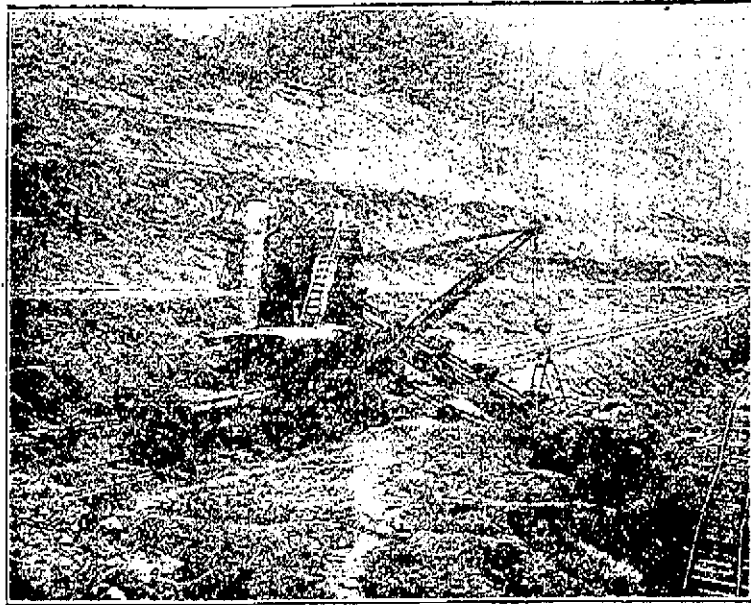

## INSTALLATION OF G. A. R. AND W. R. C.

FOUR HUNDRED PRESENT AT THE CEREMONIES LAST EVENING.

### "PHIL" CHEEK GAVE ADDRESS

E. G. Harlow and Mary Willis Installing Officers - At East Side Odd Fellows' Hall.

Veterans of the days of '61 to '65 with their families and friends to the number of four hundred gathered in the East Side Odd Fellows' hall last evening on the occasion of the installation of officers of the W. H. Sargent Post, G. A. R., and W. R. C. Sargent Corps, W. R. C., and also upon the fortieth anniversary of the

Culabra Cut, Showing Benches and Digger

death and burial of that gallant lieutenant, after whom the post and corps were named. In the opening of the installation ceremonies Captain E. G. Harlow made mention of Lieutenant Sargent as that of a brave, young soldier, whose picture adorned the wall, whose name was printed on the banner of the post, whose body lies in yonder cemetery and whose soul has gone to the great mustering of the Grand Army above with all those who aided in the holy cause and stand there in an unbroken phalanx. At the command of Captain Harlow the post was then called up and ordered to salute the dead. Positioned on walls of the hall was a picture of the colors for which the men fought, and draped were the old flags under which they marched. The picture of Lieutenant Sargent graced the room and brought back to the minds of many the terrible battle near Nashville and the glorious victory gained.

The program of the evening included the installation of officers of both organizations, musical numbers by members of post and corps and an address by the Hon. Philip Cheek, past department commander of Baraboo. J. L. Baer acted as master of ceremonies and after a brief address of welcome Col. E. O. Kimberley, assistant adjutant of the Wisconsin department, sang two verses of "The Star Spangled Banner," while those present joined most heartily in the chorus. The officers of the G. A. R. were then installed by Past Commander E. G. Harlow. During the installation "The Battle Cry of Freedom" and "While We Were Marching Through Georgia" were sung by the post, and the visions of those scenes on that march to the sea and scenes of the carnage of battle presented themselves to the minds of those who had been there. Elias Heller in accepting the command of the post gave a brief address, thanking the members for the honor bestowed upon him. He said he was proud to be commander of the W. H. Sargent

Post, because the men eligible for that position were few; even as great a man as Theodore Roosevelt could "not hold down the chair" of the commander. It cost more than the ten cents that was paid for the bronze button; it cost suffering, hardship and in many instances health to wear that button, which made them eligible to office.

"Phil" Cheek Speaks

Before commencing the installation of officers of the W. R. C. four distinguished gentlemen present were brought before the altar, presented and given seats of honor to the right of the installing officer. The four were Hon. Philip Cheek, past department commander; E. O. Kimberley, assistant adjutant general; Hon. John M. Whitehead, senator, and E. G. Harlow, past commander and installing officer of the post.

The officers of the W. R. C. were duly installed by Past President Mary Willis, followed by a short musical program and the speech of "Phil" Cheek. After the installation Master of Ceremonies J. L. Baer resumed the chair. Mrs. B. Ardis Caldwell

speaker's address was enlivened by the incidents of war, the giving of the peculiar nasal yell of the Johnnies and the cheer of the Yanks. In his speech Comrade Cheek said that many people believed slavery was the cause of the war but that was only an incident of the war. The real cause was the dispute in which the north held that the nation was sovereign and the south that the states were first, the nation second in the rule. At the close of the speech the Grand Army cheer was given and, standing, the old soldiers sang "Auld Lang Syne."

The Officers

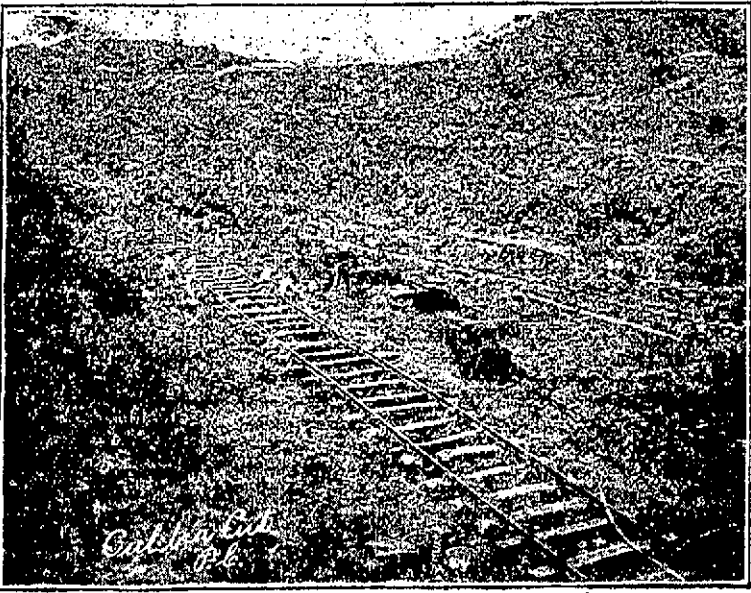

The following officers were installed by the G. A. R.: Commander, Elias Heller; senior vice commander, George Viney; junior vice commander, J. F. Carle; quartermaster, J. L. Baer; surgeon, C. Tochterman; chaplain, William V. Morrison; color sergeant, John Kruse; quartermaster sergeant, W. J. McIntyre; sergeant major, L. M. Nelson; officer of the guard, J. H. Bliss.

The officers of the Relief corps were installed as follows: President, Mrs. Victoria Potter; senior vice president, Mrs. Florence Spencer; junior vice president, Mrs. Carrie Glenn; treasurer, Miss Ella L. Willis; chaplain, Mrs. Elizabeth Trumble; conductor, Mrs. Anna Appleby; guard, Mrs. Anna Morse; secretary, Mrs. Mary Slater; patriots instructor, Mrs. Ella Gifford; press correspondent, Mrs. E. O. Kimberley; musician, Miss Lydia Pascoe.

Giceons, Attention

You are earnestly requested to attend a meeting of the local organization, Janesville Giceon Camp No. 2, in the parlors of the Baptist church, Sabbath afternoon, Jan. 15th, at 3 o'clock. Important matters to be considered. By order of John H. Nicholson, national president.

Slightly Injured: John Wood was injured while loading a car of cultivators at the Janesville Machine works Wednesday afternoon. He was taken to Dr. Chittenden's office where

Culabra Cut on the Panama Canal

it was found necessary to take five stitches in his left knee. He was then taken to his home at 350 South Bank Avenue.

Dr. A. W. Chase's Kidney-Liver Pills

the world's greatest kidney and liver regulator, and the only medicine having a combined action on kidneys and liver. One pill a dose; 25 cents a box. Write for free sample to The Dr. A. W. Chase Medicine Co., Buffalo, N. Y.

La Grippe lets up! Painkiller

is used, Cures Coughs, Colds, Pneumonia

Franklin street where he will be laid up for some time.

Card of Thanks

We wish to thank our friends and the Olive Lodge No. 27, D. of H., for their kindness and the beautiful floral offerings at the death of our mother.

MRS. JOHN HELLER,  
MRS. WM. HILL,  
MRS. O'NEIL,  
ARTHUR, WILLIAM,  
JOSEPH, JAMES AND JOHN CHURCHILL.

### NEWS OF A PERSONAL NATURE

Jas. Selkirk was in the city today on his way to Milwaukee, where he is employed by the Benjamin Young Saddlery Co., whose plant was entirely destroyed by fire in that city yesterday morning. Mr. Selkirk was formerly in business here and until recently has lived at Clinton.

W. H. Eldridge and wife are registered at a Milwaukee hotel.

Reverend Vaughan has returned from Eau Claire, where he has been spending the past week in church work.

Harry Holmes has purchased the laundry business of Fred Springer of Evansville.

Oshkosh, Northwestern: "Uncle Ike" Stephenson seems to think that somewhere in the senatorial game he may yet be able to get away with the table stakes.

### THE VALUE OF CHARCOAL.

Few People Know How Useful it is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gasses and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables.

Charcoal effectually clears and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges; they are composed of the finest powdered willow charcoal, and other harmless antiseptics in tablet form or rather in the form of large, pleasant tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is, that no possible harm can result from the continued use of them, but, one the contrary, great benefit.

A Buffalo physician in speaking of the benefits of charcoal, says: "I advise Stuart's Charcoal Lozenges to all patients suffering from gas in stomach and bowels, and to clear the complexion and purify the breath, mouth and throat; I also believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at drug stores, and although in some sense a patent preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."

### Your Dental Work Must Be

Painless.

There are various degrees of PAINLESS WORK IN DENTISTRY. Some do the best they can but even they cannot do the work without hurting if they do not have the proper appliances.

We use the

WILCOX JEWETTE OBTUNDER for such work as grinding teeth for crowning or removing the nerve. The instrument distributes chloroform, anesthetic to all sensitive parts of the tooth and gum which renders the work absolutely without pain.

Your teeth should be examined. We request that you call any time for consultation and advice, which is always cheerfully given.

## OUR SATURDAY NIGHT.

Two friends met in Chicago the other day, after a separation of several years. They had gone to the city from a little country town, and entered the employ of a commercial house, commencing at the bottom of the ladder and hoping as time advanced to find themselves well up toward the top.

Both were honest and industrious and to a casual observer their chances for promotion and success were evenly divided. After two or three years, and when the details of the business were well in hand, it became apparent that the boys were alike in many respects, that there was a marked difference in characteristics which contribute to advancement.

John was a faithful plodder. Faithful as a clock and as honest as the sun. He was always on time, and his work was never neglected. He had been known for years as "honest John." And yet, for half a dozen years he had occupied the same position, while men lower down in the ranks had passed him in the race.

Tom, his comrade from the country, was also honest and faithful, but he had combined with these qualifications, ambition and energy, as well as a fixed determination to get to the front. He soon developed the ability to take on responsibility, and not satisfied with conditions in his department, was constantly planning to improve them. When the firm wanted a man to represent them on the coast, Tom was selected for the important position, which, after a year, he resigned to engage in business for himself.

The boys were together for the first time in ten years. Tom said to John, "Well old fellow, how goes it?" "I notice that you are at the same old job."

"Yes," said his friend, "the same old job, and I never expect anything better," and then he continued, "circumstances are against me, only last week a young fellow who has only been there three years, was promoted over my head, and this has happened a dozen times since I saw you, the fates seem to be against me."

Tom slapped him on the back and said:

"Brace up old man, you are morbid and discouraged. Circumstances are a bugbear and you want to get over the notion that fates are against you. The prizes of life are for the men who get to the front in spite of circumstances." "Why I know a fellow who is deaf and blind, and last year he made \$900, and invested it in rubber stock. I don't think much of the investment, but he came to me the other day and said he had \$1,000 more and he wanted to loan it."

Talk about circumstances. I said, when a man, handicapped as that man is, can win in the battle of life, I will never say anything about circumstances.

There are too many men who charge defeat to circumstances. They say: "If I had the opportunities which seem to come to other men without effort, nothing could prevent my going to the front." That's a mistaken notion. The men who win great victories, are the men who overcome obstacles, and there is no power on earth that can stop them.

The world always has a place for this kind of men, and there are more vacant places today than at any time in history.

This is an age of concentration. Many great enterprises are consolidated, and trusts and combines have come to be household words. The National Congress, as well as State Legislatures will enact laws in an attempt to control these combinations, but they will continue to exist, for the unwritten laws of trade and competition can never be ignored. They may be regulated to some extent by law, but they will continue to do business.

These combinations of capital and labor, mean changed conditions. They mean opportunities by the score for young men, which did not exist ten years ago.

The much maligned John D. Rockefeller furnishes employment to an army of 100,000 men. Many of these are holding places of responsibility, which command salaries from \$5,000

to \$10,000 a year. The ranks of this class are not crowded because such places are only filled by men who have come to the surface in spite of circumstances.

There was a time when the ambition of every young man, who did any planning and thinking for himself, was to some day get into business for himself. It was a laudable ambition, and entitled to every encouragement, but conditions have changed, and there are plenty of positions, today, at good salaries, which are more desirable than the average business.

The large transportation companies as well as the industries, are looking for men who possess the ability to take on responsibility, and carry the burden.

The training for this work is in the school of every day life, and no boy is so poor that he may not graduate with honor. Circumstances may have prevented his gaining a college education, but ambition and observation will make good the loss, and he may go to the front if he will. There are too many young men today who never make an effort to overcome circumstances or change their environment. Boys who are surrounded with companions whose influence is demoralizing. They will be out in life for themselves in a few years, content to work, if they work at all, for a moderate wage, and complaining about lack of opportunities for advancement.

There ought to be some way to wake these boys up to a realizing sense of what life is, and the grand possibilities which it possesses. The church and the Y. M. C. A. is doing something along this line, but there is an army of boys which neither ever reach.

The responsibility comes back to the home, and it is a grave responsibility. The next generation will be largely what the home makes it. If the boy is filled with courage and ambition, and his character is kept clean and wholesome, there will be less complaint about circumstances, and the failures of life will be reduced to the minimum.

When our police department is reorganized and policemen wear uniforms and carry dinky little clubs instead of cord wood, Janesville will be quite metropolitan.

Chicago select society danced and pranced and paid the fiddler and then had thirty thousand dollars left for the suffering poor.

One thing that seems to favor Karpovitch's claim to being a great general is that his enemies at home have begun to show jealousy of him.

President Roosevelt got a clear majority in the electoral college without having to buy a single cigar for a solitary elector.

The Czar would be much pleased if any manner by which he can obtain peace with any degree of honor could be told him on "the quiet."

In St. Louis one man was frozen to death as a result of that hot place the Pike being closed.

The legislators have gone back home to tell their constituents just how they intend to vote.

Beets or tobacco, that is the question with the odds, from a financial end, in favor of beets.

Some way or other these cold waves materialize just as they are ordered to.

## PRESS COMMENT.

Madison Journal: A Kentuckian died twice at the stomach of an opponent but could not pierce it. The old theory about whiskey eating out the lining of the stomach will need revision.

Evansville Review: An old maid in Beloit says she has a parrot which swears and a monkey that chews tobacco, and between the two she does not miss a husband very much.

La Crosse Chronicle: Governor La Follette, being in the saddle would do well to go easy with the spurs. He is riding a bronco.

Chicago Chronicle: Kind Edward is a patron of the clipping bureau. This saves him the trouble of "navigating his attention called" to the matter when something is said in the papers concerning him.

Milwaukee Sentinel: Still, when you get right down to bed-rock, this Russo-Japanese war is primarily a tussle to secure property belonging to a third party that is not strong enough to hold it against either of them.

Little Suamico Intelligencer: The Hessian fly, the chinch bug, and the wheat-stem maggot are promised in abundance next year, but Suamico farmers should not be alarmed. We have positively nothing but stumps to attract the pests.

Hudson Star-Times: A Missouri editor refuses to publish obituary notices of people who, while living, failed to subscribe for his paper and gives this pointed reason: People who do not take their home paper are dead anyway, and their passing away has not news value.

Chicago Record-Herald: Thirty thousand dollars worth of jewels have been dug up in a New York back yard. They had been stolen from a daughter-in-law of Bishop Potter, and the thieves probably buried the gems so that it would not be necessary to pay taxes on them.

New York Sun: Several years ago John L. Sullivan was warmly welcomed at the White house, and now

it is said that President Roosevelt is to receive "Bob" Fitzsimmons on his next visit to Washington. The president's friends say that he was delighted to receive on election night a congratulatory dispatch from "Tom" O'Rourke, the New York sporting man. The president isn't by any means a duffer in handling the mittens himself.

Fargo Forum: An editor in the northern part of the state, who had long been a prominent churchman, recently tendered his resignation to the pastor. When pressed for a reason for such action, he replied that "power for my press is furnished by a gasoline engine, and no man can serve God and operate one of those blankety blank things at the same time."

Nunda (New York) News: Hiram Cronk, the last surviving veteran of the war of 1812, who is now living at Ava, N. Y., at the age of 104 years, is to have an honorable and elaborate funeral when he dies and his remains lie in state in the city hall in New York city, as per action of the board of aldermen. Preparing to give a five man funeral is rather unusual, and one alderman suggested that it would be better to wait for the hero to die before providing for his funeral. The New Yorkers did not wish to bury Hiram Cronk out of existence but they want him to know they are ready whenever he is.

Wausau Record: It is a curious circumstance that the three leading champions of the "people's" fight in Wisconsin are three lawyers who never shipped a pound of freight, never gave a day's employment to a laboring man, or invested a dollar in the manufacturing business in the state. It is also a curious circumstance that one of these disinterested champions is a candidate for the United States senate, another an embryonic candidate for governor, and the other a perpetual candidate for any office that has a salary attached.

Beloit Free Press: It is shown by the Des Moines Register and Leader that the Iowa distance tariff which is proposed to have established in Wisconsin, has done much to retard the growth and development of Iowa. Our legislators will best serve the interests of their constituents by those

roughly, posting themselves on the Iowa situation before attempting to saddle upon Wisconsin, a system that has "retarded the growth" of that state. Wisconsin is the seventh in rank of the manufacturing states of the union, and she has been made so by the fostering care of the railroads. It is the duty of legislators to see to it that this rank shall not be lost through unfriendly and therefore unfair legislation.

Stevens Point Journal: Some merchants have occasionally been heard to remark that advertising doesn't pay. This statement reminds us of a story told some time ago of an Indian who heard that the white man liked to sleep on feathers. The Indian thought he would try it. That night he procured a turkey feather and slept on it, but in the morning he could not see any difference in his night's rest. Just so it is with some merchants. They seem to imagine that one advertisement should bring great results—and it does sometimes, but the man who changes his ads often, and keeps the people posted on the offerings at his place of business is most sure of success.

Evening Wisconsin: It is the railroad rate commission bill that Governor La Follette wishes to rush through the legislature during the early days of the session to the end that he may open the way for the gratification of his senatorial ambition. While the Iowa newspapers are calling attention to the advantages enjoyed by Wisconsin farmers and manufacturers over men engaged in the same industrial pursuits in their state by reason of the more favorable state and interstate freight rates in Wisconsin, Governor La Follette is attempting to persuade the Wisconsin legislature to adopt the Iowa system on his recommendation and without consideration or deliberation.

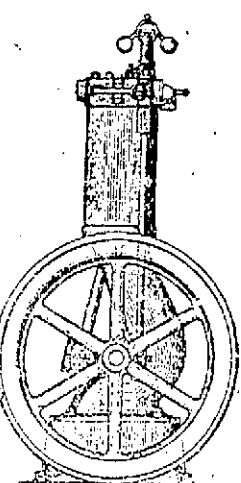

## TOO LATE TO CLASSIFY

WANTED—Grooming girl for housework. Good wages. Inquire at Gazette.

FOR SALE—A well improved farm of 100 acres, three miles from city, address X Y Z, Janesville.

FOR SALE—Missouri leads in stock raising and fruit-growing section. Soil and climate unequalled. Wipe 1st and 2nd Tuesdays of each month. Business solicited from people who wish to make profitable investments. Janesville Land Co., office with Rickels, N.Y. Co.

## For a Very Little Expense

YOU CAN SAVE ENDLESS LABOR AROUND THE FARM AND HOME

We make a remarkably good 1 horse power Gasoline Engine complete with tanks, etc., specially designed for milk separators, pumping and running small machinery: mounted on skids and easily handled. Price.....\$75

The same engine also made in 2, 4, 8 or 10 horse power. The prices are lower than manufacturers usually charge for the same high quality of workmanship and being in close proximity with the factory you will find it more convenient if you need repairs. Agents wanted. A postal will bring full particulars.

TOBACCO GOSSIP  
OF THE PAST WEEKEdgerton Tobacco Reporter Accounts  
the Movements in Local  
Markets.

The week has been largely a stormy one, holding back a good deal of riding in country districts that otherwise might have been done. The new crop is receiving some attention but not much organized effort to take it over is noticeable. Prizes for choice lots, bring anywhere from 7 to 10 cents for bundle delivery. The search for old leaf continues so that the deliveries made at packing points are about equally divided between the new and old tobacco, says the Edgerton Reporter.

F. S. Barnes purchased a 150 lot of old goods of Chris Olson of Stoughton, Wis. T. Pomeroy sold 2000 of 08 and 09 leaf.

The handling of the new crop is now under way at several packing points and the number of warehouses opened will be increased soon. It is believed the deliveries will be sufficient to keep them steadily running, though not over 25 per cent of the Crawford county leaf has been removed from the poles to date. The American Tobacco Co. intend to commence warehouse handling at several points the coming week.

The shipments out of storage reach about 20 carloads, 9475, for the week from this market to all points.

By another thirty days there will appear in many of the warehouses great spaces of emptiness. Many deals have been closed here of late in old leaf and there still remains several transactions so closely clinched that will rank among the largest deals for months past.

Old leaf has had a steady demand and the eastern buyers are still drifting this way almost daily, and none have returned without making some kind of a deal.

Local dealers are beginning to ride in spite of the frigid weather and the leaf of 1904 is now beginning to move toward the city. It is claimed that Geo. H. Rummel is the first dealer to receive the new crop. John Soule has purchased 130 acres of 1904 and is riding for both old and new.

The sales and shipments for the week were: M. F. Green shipped 6 cars of 1903 east; Geo. H. Rummel sells 2100 of 1902-3 and received three cars of 1903. John Soule buys 600 of 1903 and J. M. Thayer buys 1500 of 1901.

The visitors to this market of late were L. Weil and Richard Weil of L. Weil & Son, New York, and Max Gaus & Son, New York. The receiving of this new crop is proceeding in many of the growing sections and enough has been marketed to base an estimate on the general character of the crop as well as the probable yield. The tobacco has started coming to the warehouses in very good packing condition. There is occasionally a lot in rather high case but scarcely enough to cause much complaint or dockage. The leaf is unusually bright and thin with plenty of gum and life enough to give promise that it will go through the cure without damage. Packers are very certain that the crop stands no danger of becoming moldy or gray, which has been the cause of so much trouble the past few seasons. Some disappointment is expressed at the yield, for the average so far has not much exceeded 1200 pounds per acre. The tobacco is not running as leafy as was expected when most of it was contracted for on the fields, there being quite a disparagement between the size of the green and cured leaf. This complaint is not so much to be wondered at for tobacco is said never to look so well to the buyer again as the time when it was purchased. If buyers will insist in purchasing contracts for green tobacco there ought to be some penalty attached to such unbusinesslike methods. Altogether the new crop is believed to be well worth the price that is now being paid growers for it.

REV. SOMERVILLE IS THE  
CHOICE OF TRINITY VERYNoted Episcopalian Divine Receives  
Call from Trinity  
Parish.

On Thursday evening last the wardens and vestry of Trinity parish sent a call to Rev. George H. S. Somerville to become rector of Trinity parish. Mr. Somerville has been at Wausau for several years past and has been chaplain at the state penitentiary for several years. He is an Englishman and was ordained in the ministry in Canada. He is a talented man and an excellent speaker. It is not known yet whether he will accept the call.

## CURRENT NEWS NOTES.

Their Drive Begins: After a long period of dry weather, which has delayed logging operations up to this time, Fred Jeffris last night received a telegram from David Jeffris at Frankfort, Ky., that the rainy season had commenced and the river was rising hourly.

Marriage Licenses: Marriage licenses have been issued recently to Hayden Smith and Ester Dow, both of Janesville; John D. Conahan of Madison and Estelle J. Davidson of Milton; Sidney S. Thomas and Carrie McCartney, both of La Prairie.

Brought in Wolfhead: Sam Keller of Green county brought to the county clerk's office this morning the head of a large wolf which he claimed to have killed in the town of Avon. He neglected, however, to get the certification of Town Chairman Litchfield. The county pays a bounty of \$5 and the state an additional bounty of \$5 for wolf scalps.

Norwegian Lutheran church—Public school at 12:00 m. A Sunday meeting will be held Monday evening, Jan. 16, at 7 p. m. The meeting will be conducted by Mr. Saga, superintendent of the Norwegian Lutheran synod. Everybody welcome.

Death of Sister: Mrs. A. W. Hall was called to Elroy, Wis., on account of the death of her sister, Mrs. Winthers.

Anticorruptors: There will be a regular meeting of the Associated Charities Monday afternoon at 4:00 o'clock in the city hall.

An Animal Story For  
Little Folks

## The Frogs' Contest

There was once a grand contest announced for all the young frogs in Marsh's pond. The oldest bullfrog was coming to decide the matter. Young Peter Frog had always been good from the time he was a polliwog, and he made up his mind to win the prize and wear the medal. For weeks the other frogs were practicing diving off a log, and it was very much the way they had always played before the contest was announced. Peter Frog refused to join them. He carried a toadstool for an umbrella, so afraid was he that a

THE OLDEST FROG.

drop of water might spot his carefully rubbed green coat, and he stood far away from the lumpy, splashing young frogs for fear they should splatter mud on him.

And Peter Frog felt very superior to the other frogs, and he went along with a nice little roll of his back under his arm which a linnet had written out for him on a leaf, intending to practice bird songs, while all the other frogs were following and shouting in chorus. At last the day of the contest came. The oldest bullfrog announced that there would be diving, swimming and shouting contests. Peter Frog was his own nephew, and he had hoped that Peter might win the prize. "Get in there! Why don't you jump in?" he shouted, as Peter stood about with his toadstool under him and his little roll of linen on his arm.

"I'm afraid I'll soil my clothes," replied Peter. "I'm afraid I'll drown. I don't like the water—nasty wet stuff! But I can sing a song just like a linnet, and I will swell with pride."

"A song! Sing like a linnet!" boomed the old bullfrog. "Well, who ever heard the like of that? You're a disgrace to your name, Peter. You may leave the pond and live with the birds."

I have no idea which frog won that contest—perhaps they all did—but Peter is living with the birds to this day, and if you ever meet a delicate little frog with a toadstool held over him for an umbrella and chirping as nearly like a bird as he can you will know it's Peter—Worcester Post.

## Magnetic Needle Untrustworthy.

Over a large area of central Russia the magnetic needle does not point north or south. It is at one place deflected to the west and at another part to the east and at one place it points due east and west.

## Plenty of Help.

A city firm received no fewer than 998 applications in response to an advertisement for a clerk. The salary offered was 30 shillings (\$7.50) a week. The London Daily News.

NOVEL OFFER TO  
THE ADVERTISERSThe Gazette Offers a Special Prize  
for an Interesting Adver-  
tising Contest

The Gazette has arranged for a display advertisement writing contest among all its advertisers, by which the successful competitor will be awarded a complete course in advertising in the well-known International Correspondence schools of Scranton, Pa., valued at \$50. The course includes all lessons in pamphlet form, thirteen sections in all, corrections and criticisms of students' work, the privilege of writing the schools as frequently as may be desired on matters of advertising and time during the student's lifetime. A valuable reference book is also a part of the scholarship. The contest will begin Monday, January 16th, and will continue until April 1st, 1905, and the award of the scholarship will be determined by the advertisement which embodies the greatest "pulling" or selling power and which shall appear in the Gazette, both daily and weekly editions, sometime during the period of the space used in the advertisement. The space used in the advertisement will be considered. The only facts will be the "pulling" or selling power and every participant has an equal chance. Advertisers will not be limited, but can make as many trials as they wish. Each advertisement will be judged separately. The final judgment and decision of the award will be made by the heads of the advertising department of the International Correspondence schools. The Gazette believes that much interest will be manifested in this contest. It is the paper's desire to help its patrons in uplifting their views and ideas on the weighty subject of advertising and anything that tends to the betterment of publicity is helpful to us all. It may be stated that careful observation shows Janesville's newspaper advertisers to be in advance in ideas of those in cities larger than ours. The International Correspondence school is the oldest, largest and best equipped correspondence institution of learning in the world. Its advertising course is therefore the strongest. The heads of the department are the best that money can secure and the fact that \$5,000,000 is invested in the business of the institution is proof that ample funds are available to secure the best talent. A quarter of a million dollars is expended each year to keep the instruction departments up-to-date. The advertising course was prepared by D. M. Lord of Lord & Thomas of Chicago, an authority on advertising, and was then submitted to the best writers in the country. Two years was consumed in completing the text-books, etc., and each step of its making was given practical business tests before being adopted. This course is also revised and built up continually. Mr. O. C. Foster will explain the details of the contest to advertisers.

NOTED CHICAGO MAN  
TO LECTURE HEREDr. Beaton of Chicago, Will Speak on  
"Scotland In Song and Story"

on January 27.

On Friday evening, January 27, Dr. Beaton of Chicago, who is pastor of the Lincoln Park Congregational church of that city, will lecture at the high school auditorium on "Scotland In Song and Story." The lecture is to be given under the auspices of the Laureate society and will be complimentary to all high school students, though a nominal admission fee may be charged others. In the afternoon of the same day Dr. Beaton will talk to the pupils on "Early Scottish Poetry Before the Time of Burns."

## RADIUM MAY HEAT WORLD.

Theory Advanced by German Scien-  
tist Revolutionizes All the  
Old Ideas.

A German physicist, Herr Liebenow, puts forward the theory, which has been hinted by others, that there may be enough radium in the crust of the globe to account for the earth's internal heat. It is only necessary to suppose, for this object, that radium is "uniformly distributed throughout the mass of the earth in quantities of about 1-1,000 of what is known to occur in pitchblende."

But there are many indications that radium occurs more frequently than in all known rocks, and that its occurrence is more frequent near the surface of the earth than in the interior. "This theory," the Electrician observes, "demolishes at a blow all our conceptions of a liquid interior at the tremendous temperatures implied by a uniformly rising gradient." It now becomes permissible to assume that the temperature rises toward the center of the earth, but attains a maximum at no very great depth, and that the interior beyond that point is at a uniform and comparatively low temperature.

This is making rather too much of radium. What is known of volcanic phenomena in the past, or heat as a factor in the formation of the heavenly bodies, or the sufficiency of La Place's theory to account for the solar system, as so many slowly cooling bodies, negates the supposition of there being an other sufficient cause for the same effect. Besides, does the world know enough of the break-up of heat at radium and its liberation of heat at such pressures as exist at great depth of rock to be sure that the phenomena of the laboratory would be present there?

## Production of Condensed Milk.

Three condensed milk factories are now in operation in the United States, with an aggregate of \$225,000 invested capital and a daily capacity of 206,000 pounds of milk.

## Bananas in English Markets.

A few years ago bananas were seldom seen in English markets. Today they are almost as plentiful and as cheap as in the United States.

## Peacock a Christmas Delicacy.

Peacock at one time was a favorite Christmas dish in England.

Buy it in Janesville.

## SOCIETY.

The Schumann club has been held a magnificent Mason and Hamley concert grand piano placed in Library hall and is, therefore, well equipped for satisfactory work. There will be four piano recitals given during the season, not open, however, to the public generally. Following are the artists with date of appearance: Mr. Howard Wells, Jan. 30; Mr. Rudolph Ganz, Feb. 27; Miss Carolyn Louise Willard, March 27; Mrs. John Fowler Sweeney, May 1. The regular club meeting takes place Monday evening, Jan. 16, at the library. The program to be presented will be devoted to the early classicists: The Antiquities of Music Miss Sweeney, Pastorale—Scherzatti, Tessa Gibbons, Pastorale—Bach, Miss Showalter, Minuet—Celebre—Bocherini, Mrs. C. L. Clark, Sonata—Mozart, Mrs. Sweeney, La Conson—Dagulin, Mrs. Wilcox, Reading—Mutual Relations of Teacher, Pupils and Parents, Mrs. Doty Courant, Sigur—Bach—MacDowell, May Treat.

Twenty-five friends of Mr. and Mrs. John Steed of Pease Court surprised them Thursday evening and helped them to remember the fact that they had been married seven years. A beautiful gift was presented to Mr. and Mrs. Steed as a token of the esteem of the friends who had gathered. The evening was passed pleasantly with games and music and a tempting luncheon was served by the hostess.

Miss Eva Pond was hostess Thursday evening at a party given for twenty-five schoolmates and friends at her home on Washington street. Music and games provided the entertainment of the evening and delicious refreshments were served at the conclusion of the festivities.

On Monday evening next the B. S. & S. W. club will hold their January dance. The next dance of this club will be held on the thirtieth of the month.

The ladies of the Afternoon Euchre club met with Mrs. H. G. Carver this week. Mrs. J. A. Sutherland was the prize winner.

The Boys' club of the Congregational church yesterday afternoon enjoyed a bon-rider through the streets of the city and a most pleasurable time was spent by all.

Several hob loads from this city went to the La Prairie Grange hall where they attended the dance given last evening.

Mrs. Carrie Griswold has returned home from a visit with friends in Beloit.

Mrs. C. S. Putnam entertained the Ladies' Afternoon. Whist club this afternoon at her home on Park place.

Mr. and Mrs. Bert Van Houten returned last evening from their wedding trip.

Mr. and Mrs. W. J. Lawrence returned last evening from their wedding trip.

Miss Agnes Shumway entertained at cards during the past week.

Mrs. Art Harris is entertaining the Whist club this afternoon.

DEATH CLAIMED  
SARAH SHERMANGreatly Respected Resident of Janesville Dies at Home of Son  
Last Night

Mrs. Sarah J. Sherman passed away at the home of her son, Walter J. Sherman, 117 1/2 stilton avenue, last evening at 7 o'clock. The deceased was the widow of Amosiah Sherman and has lived in this city for many years. She was ninety-seven years of age and one of the best known and highly esteemed residents of this city. There were two sons left to mourn her loss—Fred and Walter Sherman, both of Janesville. Owing to sickness in the family the funeral services over the remains will be held at the chapel at 2 o'clock tomorrow afternoon. Rev. Denison will be the officiating clergyman. The interment will be in Oak Hill cemetery.

The remains of the late Mrs. Martin Barron were tenderly interred in Mount Olivet cemetery this morning. Funeral services were held from St. Patrick's church at 9:15 o'clock. Rev. Dean McGinnis officiating. There was a large concourse of friends in attendance at the services and the floral offerings were most beautiful. The pallbearers were Thomas Humphrey, John Dawson, Thomas Dumphy, Richard Croak, Thomas Croak and Patrick Broderick.

Mrs. Peter Aller Word has been received of the death of Mrs. Peter Aller, for many years matron at the county farm and asylum. Mrs. Aller died at the home of her son in Oshkosh, where she has made her home since leaving the county farm five years ago. She was matron at the county institution for about seventy-three years of age. Her remains will be brought to Evansville and the funeral will be held from that city on Tuesday next.

Mrs. John H. Wingate Word was received this afternoon of the death of Mrs. John H. Wingate this morning at Minneapolis.

Mrs. Wingate and her husband left Janesville in 1880 and have since made their home in Minneapolis. The remains will be brought to Janesville and the interment will be at Oak Hill cemetery on Tuesday.

CITY-HALL CLOCK  
OBJECTS TO COLDWhich Has "Gummed" the Lubricat-  
ing Oil, and Quits Work Pending  
Treatment by Physician Klein.

The recent slump in the temperature has established the fact that Janesville's city-hall clock is a fair-weather timepiece. Several days ago it struck and refused to keep further tab of "glowing moments" which had lost nearly all of their glow. As soon as he can take a half day off as Chief Engineer Klein will overhaul the mechanism and try to adjust the difficulties. It is believed that the primary cause of the stoppage was the congealing of the lubricating oil, caused by the chill blasts which have been coming out of the north.

WEATHER IS VERY  
COLD AROUND HEREWhat Thermometers Show the Tem-  
perature To Be in the City  
and Elsewhere.

Though the mercury did not fall as far as it has this winter in Janesville, this is probably the coldest weather that has yet been experienced in this section of the country this year. The thermometer at Heimstreet's drugstore registers eight degrees below zero as the coldest and fourteen above as the warmest, but thermometers in more exposed places and on the tops of hills or in places where there is a clean sweep of the wind have fallen down to sixteen and eighteen below. In the towns of La Prairie and Bradford it is reported that the mercury dropped as low as twenty degrees, while railroad men in from Elroy, Wis., state that there the thermometers registered thirty-two degrees below. The general average temperature around the city this morning at seven o'clock was about fifteen below. On the railroads the cold has interfered with the running of the trains and all the passengers this morning were a little off time, while a number were two and three hours late. The blow off pipes in the engines and other portions exposed to the air have become frozen up and cause a great deal of delay, while at crossings more than ordinary care has to be taken to avoid accident. In this city a number of the people have frozen ears and fingers and the suffering from the cold seems to be almost greater than at any other time.

MILTON COLLEGE AND HIGH  
SCHOOL PLAY BASKETBALLGame This Evening in the School  
Gymnasium—Much Interest  
Shown in Contest.

This evening at 8:00 o'clock the Milton college basketball five and the Janesville high school team will meet in the school gymnasium in the first game of the season that has been played by the high school with a team from out of town. The high school line-up will be: forwards, Carle and Morse; center, Caldwell; guards, Galbraith and Sennett (captain).

WENT ON LONG TRIP FAR  
INTO COUNTRY OF MEXICO

Gordon Erickson and A. N. Gleason Left This Morning for Dis-  
tant Climes.

Gordon Erickson and A. N. Gleason left this morning on a trip many hundreds of miles over land that will take them south through the states of and into the country of Mexico, over two hundred miles beyond the city of Mexico. They will remain in that place about ten days and will be gone from home about three weeks. The purpose of the trip is to look over interests which they have in that country.

## Rally of the Gideons

On Sunday evening the local members of this useful and rapidly growing organization of Christian commercial travelers will gather at the Baptist church. A prominent member of the order from Chicago will speak. The general public also is welcome to this rousing rally of the knights of the grip.

INTERESTING TOUR  
OF FORUM OF ROMEProf. Theodore Lyman Wright Lec-  
tured Before the Art League  
Yesterday Afternoon.

Prof. Theodore Lyman Wright gave a very interesting lecture on the Roman forum before the Janesville Art league yesterday afternoon. The discourse was illustrated with an exceptionally fine collection of stereoscopic views. As first from the local scene, the scene from the tomb of Hadrian, and the hills with their ruined palaces in the distance. The old god Vulcan, he said, laid the foundation for Rome with lava and tufa from the volcanoes, with lava and tufa from the volcanoes, the islands which were to become the Aventine, Capitoline, and Palatine hills. The tour started with a visit to the colosseum, where once the colossal statue and golden palace of Nero stood. After a brief inspection of the arches of Constantine and Titus—with the lecturer's comment that the latter being more simple was more acceptable to the taste of the present time when we are throwing away our Louis XV furniture for the "Mission" variety—the ruins of the structures of the palace of Caligula and the atrium, or home of the vestal virgins, were viewed before entry was made into the forum proper. Here the three beautiful Corinthian columns of the temple of Castor and Pollux, the eight granite columns of the temple of Saturn were carefully inspected, as well as the rostra, the temple of Concord, and the other wonderful ruins. Interest was greatly heightened by the presentation of restorations of all these great buildings both in the forum and on the hills. The filling up of the forum which has made modern excavations, sometimes to the depth of 30 feet, necessary was likened to the process whereby the glen in the Beloit campus was gradually being obliterated with ashes and clippers. The forum lay between the hills and when its buildings began to go to ruin the inhabitants used it as a dumping ground. The trip ended with a visit to the Capitolina hill with its steep ascent and the famous harpian rock. The next lecture on February 10 will be devoted to "The Influence of Greece on Rome."

# In The Fistic Arena

## Marvin Hart Is After Jeff

"I've Got the Punch," Says the Kentucky Colonel. Willie Lewis a Comer. Has Won Fifty-seven Fights—Fistic Revival In Boston.

Marvin Hart, the Louisville heavy-weight, who is at present in Larkspur, Cal., training, has the heavy-weight bug in his gut good and strong. Marvin traveled west with the intention of getting on with Kid McCoy, but as club managers in Frisco are not very fond of the Kid, Marvin has been over the field trying to land some one else.

"I'm only twenty-six now, and my best weight is 135 pounds. You see, I'll be getting heavier all the time, and now I am ready to meet Champion Jim Jeffries.

**Hart Beat Rubin.** "I beat Rubin, who is almost as big as Jeff, and I don't see why I wouldn't have a look in with the big fellow. I know people think I am crazy, but a lot of short ends were thought to be crazy until they won. They thought Fitzsimmons was a nut when Jeffries first met him, but they changed their minds after Jeffries won.

**The Man With a Punch.** "He has to drop some day, you know, and a man with a punch will do it. I've only been knocked out once in my life and have put lots of big fellows away. Poor old Bill Hanahan was the boy who knocked me. Gee! He cupped me on the jaw that night before I had my hands up, and I went out faster than I came in the ring.

"That was only once, though. None of the others did it, and I'm working now with the hope of getting some of those fellows out."

Big Jack McCormick, the fellow who put Kid McCoy out one night, is working with Hart, and, although the prospects of a match are not very bright,

MARTIN HART, WHO SEEMS FIGHT WITH JEFFRIES.

Hart is hopeful and will continue his work until something turns up. He is at Metzger's, where Nelson trained for Britt.

**Lewis a Promising Lad.**

Willie Lewis, who recently defeated Martin Canale and has challenged Jimmy Britt, was born in New York May 21, 1885. At present he is the favorite subject for conversation among pugilistic folk. He is five feet eight inches high and weighs 133 pounds.

Lewis is considered one of the most promising lightweights in the world and could give Britt as lively a fight as did Battling Nelson.

He started to box as a professional in 1900 and for the following two years ranked as one of the best featherweights in the country.

In 1903 he quit the game because he met with several reverses and needed a rest. After an absence of more than a year he re-entered the ring in the lightweight division and engaged in his first bout last May at Philadelphia with George Krall, whom he stopped in the second round, breaking his ribs.

Since May he has engaged in thirteen contests, all but two taking place in Philadelphia. Of these two one was with Kid Griffin, whom he knocked out in eight rounds at Baltimore. The other was with Martin Canale at Portland. Of the thirteen fights he has won all, ten with clean knockouts, eight of the ten inside of six rounds. In Philadelphia Lewis is known as the "rib-smasher."

**Won Fifty-seven Fights.**

In sixty fights Lewis has lost three—one to Rufe Turner at San Francisco, when Lewis was but a lad of sixteen; the others to Billy Gardner and Joe Tipman. He has since met and knocked out Tipman in five rounds. Bellefield Walcott, the crack lightweight, was another victim of Lewis, having suffered a knockout in five rounds at the hands of the New Yorker. This is the only knockout against the record of Walcott.

Among others that Lewis has put out are Kid Tutts, Mosey King, Jim Hatwood, Denny Hall, Billy Fairburn, "Terrible Tommy" Hogan, Kid Stein, George Krall and Fred Vanouch, three rounds.

He has a ten round draw with Willie Fitzgerald to his credit and has won over Jack O'Neill, Bob Russell, Kid Williams and every lightweight that has been pitted against him in Philadelphia.

**Boston Fight Revival.** The sports in Boston are growing more jubilant every day over the encouraging hints that Governor Douglas will permit the revival of boxing in the city. The clubs are making elaborate plans in anticipation of it.

Judge William Henry Harrison Emmons, whose foot has been kept on the neck of the boxing dragon for two years, it is said, will be shelled to a minority position on the board of police commissioners, and his successor as chairman is expected to permit boxing under proper restrictions.

As Governor Douglas has had the appointment of a new police commis-

WILLIE LEWIS READY TO DELIVER HIS LIGHT TO BODY.

sion and can make this appointee chairman it is believed that a man will be appointed with more liberal views than the irrevocable Emmons has shown.

In this connection it is stated that a well known light promoter is offering to arrange bouts for the Chelsea (Mass.) club with a view to future events.

**Kid McCoy Now a "Has Been."**

Kid McCoy, once the peer of ring strategists, is down and out, and from present indications he will never don the mitts again.

He gave out a statement in Los Angeles recently, and his friends say the Kid means all he says:

"My fight with Twin Sullivan is all off—that is, for the present. I'm just as sorry as any one can be about it, but the fact of the matter is that my health won't stand the strain of training. The doctor says I will have to get out of here for awhile, and I leave shortly for San Francisco."

McCoy was in bed in Los Angeles for several days and is far from well.

**Weakened While Training.**

All who know the fighter say that there is nothing unexpected in the news. For the last few weeks—in fact, ever since he started in to train seriously for his fight with Sullivan—he has shown a growing weakness in the arduous work necessary to put him in his old time form and condition.

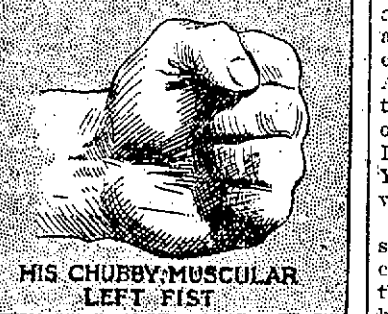

A strenuous life under the white lights of pleasure has put him "where many other fighters have gone before," say his friends here, and many an effort has been put forth to lead him back to serious work, but in vain. He had all along insisted that serious training was not necessary to cope with Sullivan, but that was merely an excuse to desert the camp from where it was hoped he would emerge in fit shape to put up a battle with the "Twin" that has been eagerly anticipated.

**Munroe Is After Neil.**

George Munroe, the bantamweight, of New York city, who at one time was

FIGHTING FACE OF WILLIE LEWIS

HIS CHURBY-MUSCULAR LEFT FIST

**AS THE ARTIST SEES WILLIE LEWIS.** Terry McGovern's keenest rival, has been boxing at Hot Springs, Ark., in championship form for the last month. Munroe has taken a new lease of life and has won four straight fights in the west. He is now anxious to meet Frankie Neil for the bantamweight championship of this country and writes to say that Joe Yeager, the racing bookmaker, will back him if the coast boy will consent to meet him.

## Britt Is "It."

New the Frisco Champion Wants World's Championship Title. Jimmy a Sartorial Expert.

Is Jimmy Britt "It?" Ask Jimmy. He says so, and therefore we must not doubt for a moment. Jimmy is now holding himself in readiness to sign articles to meet Jabez White, the English champion, represented on this side by Charley Mitchell.

Britt will be satisfied with nothing less than the world's championship title. By defeating White he will receive it.

It is generally believed on this side of the Atlantic that Britt will whip White handily. Still, we must remember that Britt has had unusual luck in the matter of decisions, and possibly he is not as "swift" as he is believed to be.

However, American fighters have usually defeated Englishmen of their own weight, although the comparatively recent Neil-Bowker bout ended in disaster for Uncle Samuel's representative.

"Philadelphia Jack" O'Brien, it will be remembered, actually won the heavyweight championship of Great Britain, yet he is but a middleweight, not even a welterweight.

Britt, by the way, is the Beau Brummel of the pugilistic arena. He is one of the best dressed young men on the Pacific coast, and as shown in the accompanying picture, he is thoroughly familiar with the latest style in walking sticks as well as in clothes.

If Britt were not a fighter he would undoubtedly be termed a "dude" by the San Francisco sports, but he is so handy with his "bunches of fives" that such an expression is out of place.

Some of the disgruntled followers of Battling Nelson and Young Corbett aver that Britt should be named "The Referee's Pet," but as there is no official sanction for the use of the title it must be "passed up," for the present at least.

An eminent ring statistician has figured out the features of the year just ended and finds that it has marked the retirement from the ring of more heavyweights than have been

JIMMY BRITT, THE PUGILISTIC BEAU BRUMMEL.

sent to the woods in any one twelve-month for a long while, says an exchange. Among those who are out of it now for good and all as far as the prize ring is concerned are Peter Maher, Gus Rubin, Joe Choyinski, Tom Sharkey, George Gardiner, Kid McCoy and Bob Fitzsimmons. Of course some of these will not accept the verdict of old Father Time and will contend that they are still as young as they used to be. This would be the case especially with Fitzsimmons and McCoy. With greenhorns and stiffs they may still be able to make a bluff at boxing, but as far as good, husky young heavyweights are concerned they are all in, and it is "the old man's home for theirs." Fitzsimmons has probably taken better care of himself than any of the others barring Sharkey.

## FLORIDA TRAP TOURNAY.

Gigantic Shooting Carnival Planned For Miami Gun Club.

Efforts are being made by the Miami Gun club of Miami, Fla., to bring together the best amateur trap shooters of the country in the live bird tournaments now being promoted for February and March. Invitations have been accepted by the New York A. C., Westchester (N. Y.) Country club, Crescent A. C., Meadowbrook Hunt club, Carteret (N. J.) Gun club, Olympic A. C. of San Francisco, Missouri A. C. of St. Louis, Chicago A. A., Boston A. A., Yale, Harvard, Princeton, Pennsylvania and Cornell Gun clubs.

There will be team and individual shoots. Two of the events will be of championship character. "The cup for the team championship will be donated by the Seminole club of Miami and that for the individual championship by C. L. F. Robinson, president of the Miami club.

In addition to the championship competitions there will be several handicap events. Rules of the Interstate association will govern all competitions.

**Lon McDonald.**

Lon McDonald is said to have engaged to train the stable of Howland S. Russell of Boston next season.

## MEDAL FOR AN OLD LIFE SAVER

Members of New Jersey Station Honor a Veteran Comrade.

Point Pleasant, N. J., Jan. 14.—Former Senator J. G. W. Taylors of this place has been presented by the men of the life-saving service of the Fifth district, of which he has been superintendent for a generation, with a handsome medal, bearing the emblem of the life-saving service, as a token of their appreciation of the courteous treatment they had received at his hands. The emblem was made at Atlantic City. The entire medal is gold, even to the miniature roping of the buoy. The device is almost two inches in diameter. It was presented by Capt. Parker of Atlantic City on behalf of the men.

## GOLD STRIKES NEAR HELENA

Valuable Vein of Rich Ore Is Developed by a "Croc."

Helena, Mont., Jan. 14.—Within a short time two strikes have been made in two miles near Helena. Some time ago a crosscut on the 600-foot level of the Bald Butte discovered a new vein carrying high values in gold. Another crosscut has just been run on the same level to prove the vein further. At the last point of development it is from three and one-half to four feet wide and has high values. This vein is entirely new and independent of the others opened, from which millions have been taken. One car shipped netted more than \$1,100.

## New Harriman Traffic Chief.

St. Paul, Minn., Jan. 14.—P. C. Stroh, general traffic manager of the Great Western railway, has been appointed assistant traffic director of the Harriman lines, with headquarters in Chicago. He succeeds B. Campbell, who has become fourth vice president of the Northern Pacific.

## Boy Is Saved by His Teeth.

Elkhart, Ind., Jan. 14.—After being in ice water twenty minutes, Warden Long, aged 17, was saved by grasping with his teeth a rope which his hands were too numb to grip. Fred Taylor, a companion, was also rescued. Ice broke under them while they were returning from hunting.

## Fishermen Are Rescued.

Marquette, Wis., Jan. 14.—The last of the missing fishermen who were carried out on the bay on Tuesday reached shore Friday, sixteen miles north of Menominee. The men were without food twenty hours.

Superior Telegram: Scientists say that kissing is dangerous—but a fellow doesn't have to be a scientist to discover that.

## What Shall We Have for Dessert?

This is an important daily question. Let us answer it to-day. Try

## Jell-O,

America's most popular dessert. Received Highest Award, Gold Medal, World's Fair, St. Louis, 1904. Everything in the package; add boiling water and set to cool. Flavors: Lemon, Orange, Raspberry, Strawberry, Chocolate and Cherry. Order a package of each flavor from your grocer to-day. 10c. When you make Ice Cream use Jell-O ICE CREAM Powder. All ingredients in the package. At all grocers. 2 pgs. for 25c.

## WORTH A THOUGHT.

This Statement Will Interest Scores of Janesville Readers.

The facts given below are worth a perusal by all who are anxious about their physical condition or are similarly situated to this resident of Beloit. It is a local occurrence and can be thoroughly investigated.

Mr. J. E. Flint, of 876 Bluff street, Beloit, Miller at the Elgeton, Mfg. Co., says: "I had pain in my back for about two years. Although I was not laid up and unable to work, still the dull throbbing while at work was disagreeable and inconvenient. Standing and walking about aggravated it, or if I sat in one position any length of time my back became very stiff. I read about Doan's Kidney Pills in one of our papers and as they were especially recommended for such complaints I got a box. They soon took the pain and soreness out of my back and kidneys. They reached the spot at once."

Plenty more proof like this from Janesville people. Call at the Peoples' Drug store and ask what their customers report.

For sale by all dealers, price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name Doan's and take no substitute.

## A Thoughtless Druggist.

ONLY a thoughtless druggist would offer a preparation without the signature of Chas. H. Fletcher when Castoria is called for; the "delicate, faint and flickering light" that joins baby's life to its devoted parents being too sacred, to the self-respecting druggist, to be trifled with.

For over thirty years Mr. Fletcher has given, and still gives, his personal attention to the preparation of Castoria. It has won the confidence of mothers and physicians everywhere—never harmed the tiniest babe. This cannot be said of Imitations, Counterfeits and the "Just-as-good" rot.

The thoughtless druggist only offers the counterfeit because of a few pennies more profit. Any new preparation can be but an experiment, and they are experiments—mere guess work—irrespective of what their sponsors may say for them. It is experience of over thirty years, against wild and injudicious experiment.

# THE ILLINI

A STORY OF THE PRAIRIES

By HON. CLARK E. CARR

ALTHOUGH published only on the first of December it has been necessary to put the book on the press twice since that time. The distinguished author seems to have done the almost impossible thing—a successful combination of fiction and history. While the book is in narrative form, the great men who appear—Lincoln, Grant, Douglas, Logan—are drawn with the most perfect fidelity by one who was intimate with them all.

It is this strong personal element which is one of the reasons for the success of "The Illini." There are very few residents of the State who have not more or less distinct recollections of her most heroic figures; and are not delighted to find their memories stirred in such an eloquent fashion.

"No American can rise from a perusal of this book without a vastly increased respect, based upon authentic knowledge, for the people of Illinois; and to the Illinoisan it will come almost as a gospel of enlightenment and encouragement to interest himself in the past history and present fame of so majestic a commonwealth."—THE DIAL.

CHAPTER XXVI.

BY ORDER OF THE COURT.

Between the hours of 8:30 and 10 p. m. the Union passenger station at the capital presents a moving and spirited spectacle. Within the hour and a half, four through and three local trains are due to leave, and the space within the iron grilles that fences off the track platforms from the public part of the station is filled with hurrying throngs of train-takers.

It was the evening of the last day in the month; the day when the Federal Circuit of Railway Workers had sent its ultimatum to Receiver Guilford. The reduction in wages was to go into effect at midnight; if, by midnight, the order had not been rescinded, and the way opened for a joint conference, touching the removal of certain officials, a general strike and tie-up would be ordered. Trains in transit carrying passengers of United States mail would be run to their respective destinations; trains carrying perishable freight would be run to division stations; with these exceptions all labor would cease promptly on the stroke of 12.

Such was the text of the ultimatum, a certified copy of which Engineer Scott had delivered in person into the hands of the receiver at noon.

It was now 8:45 p. m. The eastbound night express was ready for the run to A. & T. Junction; the first mail, one hour and 35 minutes late from the east, was backing in on track nine to take on the city mail. On track eight, pulled down so that the smoke from the engine should not foul the air of the train-shed, the receiver's private car, with the 1,010 for motive power and "Red" Callahan in the cab, had been waiting since seven o'clock for the order to run special to Gaston. And as yet the headquarter office had made no sign; not word of reply to the strike notice.

Griggs was on for the night, run eastward with the express; and "Dutch" Tischer had found himself selected to take the fast mail west. The change of engines on the mail had been effected at the shops; and when Tischer backed his train in on track nine his berth was beside the 1,010. Callahan swung down from his cab and climbed quickly to that of the mail engine.

"Anything new at the shops, Dutchie?" he inquired.

"I was not something's hearing, nein. You was dot Arkoos newspaper dis evening, about dot strike?"

"Divid a word. Ye might think Scott'd handed the major a bit of blank paper fr the notice he's taking. More than that, he's lavin' town, wid me to pull him. The Naught-seven to run special to Gaston—bad case to ut!"

"Well, I can't bellup id," said the phlegmatic Bavarian. "I haf the mail and eggpress got, and I go mit dem through to Pghorn. You haf der private car got, and you go mit dem through to Gaston. Den ve quits, and it?"

Callahan nodded and dropped to the platform. But before he could mount to the foot-board of the 1,010, M'Tosh collared him.

"Patsy, I have your orders, at last. Your passengers will be down in a few minutes, and you are to pull out ahead of the express."

"Is it to Gaston-I'm goin', Misher M'Tosh?"

The fireman was standing by with the oil can and torch, ready to Callahan's hand, and the train-master drew the engineer aside.

"Shovel needn't hear," he said, in explanation. And then: "Are you willing to stand with us, Patsy? You've had time enough to think it over."

Callahan stood with his arms folded and his cap drawn down over his eyes. "Tis not fr meself I'm thinkin', Misher M'Tosh, as ye well know. But I'm a widdy man; an' there's the bit collen in the convint."

"She'll be well cared for, whatever happens to you," was the quick reply. "When I'm yer man," said Callahan; and then the train-master was gone, he ordered Shovel to oil around while he did two or three things which, to an initiated onlooker, might have seemed fairly inexplicable. First he disconnected the air-hose between the car and the engine, tying the ends up with a stout cord so that the connection would not seem to be broken. Next he crawled under the Naught-seven and deliberately bled the air-tank, setting the cock open a mere hair-

breadth so that it would leak slowly but surely until the pressure was entirely gone.

Then he got a hammer and sledge out of the engine-tool-box, and after looking up the safety-chain couplings between the private car and the 1,010, he crippled the points of the hooks which the hammer so that they could not be disengaged without the use of force and the proper tools.

"There ye are, ye old divil's bandwagon," he said, apostrophizing the private car when his work was done. "Ye'll ride this night when Patsy Callahan drives, an' be dommed to ye."

Meanwhile the train-master had reached the iron grille at the other end of the long track platform. At a small wicket used by the station employes and trainmen, Kent was waiting for him.

"Is it all right, M'Tosh? Will he do it?" he asked, anxiously.

"Yes, Patsy's game for it; I knew he would be. He'd put his neck in a rope to spite the major. But it's a crazy thing, Mr. Kent."

"I know it; but if it will give me 24 hours—"

"It won't. They can't get home on our line because we'll be tied up. But they can get the Naught-seven put on the Overland's Limited at A. & T. Junction, and that will put them back here before you've had time to turn around twice. Have they come down yet?"

"No," said Kent; and just then he saw Loring coming in from the street entrance and went to meet him.

"I have the final word from Boston," said the ex-manager, when he had walked Kent out of earshot of the train-takers. "Your terms are accepted—with all sorts of safeguards thrown about the 'no cure, no pay' proviso; also with a distinct repudiation of you and your scheme if there is anything unlawful about it. Do you still think it best to keep me in the dark as to what you are doing?"

"Yes; there are enough of us involved, as it stands. You couldn't help; and you might hinder. Besides, if my direction should happen to explode in our mine it'll be a comfort to have a foot-loose friend, or two on the outside to pick up the pieces of us."

Loring was polishing his eye-glasses with uncommon vigor.

"I wish you'd drop it, David. If it isn't too late, I can't help feeling as if I had prodded you into it, whatever it is."

Kent linked arms with him and led him back to the street entrance.

"Go away, Granddame, and don't come back again," he commanded. "Then you can swear truthfully that you didn't know anything about it. It is too late to interfere, and you are not responsible for me. Go up to see Portia; she'll keep you interested while you wait."

When Loring was gone Kent went back to the wicket in the grille; but M'Tosh, who was always a busy man at train-time, had disappeared again.

It was a standing mystery to the train-master, and to the rank and file, why Receiver Guilford had elected to ignore the fact that he was within three hours of a strike which promised to include at least four-fifths of his operatives; had taken no steps for defense, and had not confided, as it appeared, in the members of his own official staff.

But Kent was at no loss to account for the official silence. If the secret could be kept for a few hours longer, the jumbo would unload the Trans-Western, strike, tie-up and general demoralization, upon an unsuspecting Overland management.

None the less, there were other things unexplainable even to Kent; for one, this night fitting to Gaston to put the finishing touch on an edifice of fraud which had been built shamelessly in the light of day.

Kent had not the key to unlock this door of mystery; but here the master spirit of the jumbo was doing, not what he would, but what he could. The negotiations for the lease had consumed much time at a crisis when time was precious. Judge MacFarlane had to be recalled; and once more he had to be recalled; and Falkland, acting for the Plantagoed-interest, had insisted upon some formal compliance with the letter of the law.

Bucks had striven masterfully to drive and not be driven; but the delays were inexorable, and the impending strike threatened to turn the orderly charge into a rout. The governor had postponed the coup from day to day, waiting upon the leisurely movements of Falkland; and at the end of the ends there remained but three hours of the final day of grace when the telegram came from Falkland with the welcome news that the Overland officials were on their way from Midland City to keep the appointment in Gaston.

Of all this Kent knew nothing, and was anxious in just proportion as the minutes elapsed and the time for the departure of the eastbound express drew near. For the success of the desperate venture turned upon this: that the receiver's special must leave ahead of the passenger train. With the express blocking the way, the difficulties became insurmountable.

Kent was still standing at the trainmen's wicket when Callahan sent the private car gently up to the trackhead for track eight. M'Tosh had been telephoning again, and the receiver and his party were on the way to the station.

"I was afraid you'd have to let the express go first," said Kent, when the train-master came his way again. "How much time have we?"

"Five minutes more; and they are on the way down—there they come."

Kent looked and saw a group of six men making for the nearest exit in the grille. Then he smote his fist into his palm.

"Damn! he muttered: 'they've got the vice president of the Overland with them! That's bad.'"

"It's bad for Mr. Callahan," growled M'Tosh. "We're in too deep now to back down on his account."

Callahan's gauntleted hand shot up

to the throttle-bar.

"I'm havin', Misher Halkett," he said mildly. "Will ye go back to the car, or ride with me?"

The general superintendent took no chance of catching the Naught-seven's hand-rails in the darkness, and he whipped up into the cab at the first sharp cough of the exhaust.

"I'll go back when you stop for your orders," he said; but a shadowy figure had leaped upon the engine-step

to the throttle-bar.

"I'm havin', Misher Halkett," he said mildly. "Will ye go back to the car, or ride with me?"

The general superintendent took no chance of catching the Naught-seven's hand-rails in the darkness, and he whipped up into the cab at the first sharp cough of the exhaust.

# THERE'S MONEY AT YOUR DOOR.

**Our Factory Cost Sale of Pianos,  
To Close Out Our Business**

**INTERESTS EVERYBODY.**

There is an oriental story of a man who waited 1000 years at the gates of Paradise, hoping they would open. One day he took a nap, during which time the gates opened and closed again. You have been waiting, and waiting long, for an opportunity to get a piano at a very low figure. Well, don't take a nap now; the opportunity is open to you.

For the information of those people who are calling at our store to see Mr. Shnaekel we would say that he no longer lives in Janesville. He has moved to Madison, Wis. He has no connection with our business whatever. This is the reason, and the only reason, why we are forced to close out this stock of pianos right here, or spend a lot of money to move them to Milwaukee. We decided we had rather take the money to Milwaukee in our pockets, hence the sale. This is the first and only sale of pianos we have ever held in our 32 years of business, but we were simply forced to it, and the people of Janesville are certainly awake to the opportunity offered them, for many of the best people are purchasing pianos, and the reason why is just as plain as two times two are four; it is because of the grade of the

goods and the astonishingly low prices and easy terms at which they are offered.

Just come in and see that full Cabinet Grand piano at only \$143. You can save just \$57 on that one. Then those \$225 to \$275 pianos are going at \$150, \$160, \$175, \$187, to \$198. We will make the terms of payment to suit you, and you can't afford to let the chance slip to get one of them.

Then those \$300 to \$375 pianos, you always expected to have to pay that much to get a piano, you can secure one of these fine ones for the mere sum of \$217 to \$238.

We tell you candidly you can't afford to stay at home without investigating this opportunity of a lifetime. \$10 to \$25 down and \$1.25 a week to \$10 a month takes any piano in the store. Square pianos, \$10, \$27, to \$38; \$5 to \$10 cash down and \$1 to \$3 per month.

Organs—well, you can take one of them home at just about your own price and on payments so easy you will have no trouble in meeting them. The store is open every evening during this sale.

Remember the place, No. 10 Jackson St., one-half block south of Milwaukee street.

**J. B. BRADFORD PIANO CO.**

**J.M. BUSTWICK & SONS.**

## ...LOOK OVER THIS LIST...

We offer the following items at the prices mentioned until **February 1st**. No better chance ever offered to save money. We expect to benefit a great many people as we have **thousands of yards** to commence with, and it will take several days of lively selling to lower the piles. You can buy all you want at these prices, we do not **hold you down to a few yards only**.

#### DEFEND SWAYNE.

**Congressman Says the Judge is Being Hounded by Enemies.**

Washington, Jan. 14.—Vigorous defense of Judge Charles Swayne of Florida by Mr. Littlefield of Maine was the feature of the discussion of the articles of impeachment against the jurist in the house Friday. Mr. Littlefield said there had been "no hunting or hounding" of Judge Swayne until, as a result of the O'Neal contempt case, O'Neal sought to get his revenge on Judge Swayne, and charged that since O'Neal died his funds were to an extent carrying on the prosecution. This, the speaker characterized as "an infamous legacy of hatred, malice and revenge." He read from the opinion of Judges Pardee, Shelby and McCormick of the circuit court of appeals in which Judge Swayne was sustained, and in most vigorous manner declared that if Judge Swayne was to be impeached for acting as he did in the case of O'Neal the three judges named also should be impeached.

Mr. Parker of New Jersey said the judge was a victim of persecution, that except in the case of the expense account the alleged impeachable acts were so old and stale that they should not now be revived. Mr. Parker said other judges had charged up the full \$10 a day allowance for expenses, adding such evidence had been offered the committee and ruled out. "It was not offered," retorted Mr. Jenkins of Wisconsin, chairman of the judiciary committee, "and it is no defense of Judge Swayne to show that ten other judges have deliberately stolen \$6,000 out of the treasury of the United States."

Mr. Lacey of Iowa injected into debate the statement that treasury officials always had regarded the \$10 a day as a fixed charge for expenses of judges.

#### Philippine Bill Conference.

Washington, Jan. 14.—The house committee on insular affairs directed Chairman Cooper to recommend to the house that it nonconcur in the senate amendments to the Philippine bill and ask for a conference.

#### Deceptive Counterfeit.

Washington, Jan. 14.—Chief Wilkie of the United States secret service announces the appearance of a new and very deceptive counterfeit \$2 certificate. The note is of the series of 1899, Lyons, register; Roberts, treasurer.

#### Favors Army Canteen.

Washington, Jan. 14.—The senate committee on military affairs considered informally the bill to restore the army canteen. Senator Cockrell said the bill proposed principally to permit the sale of beer at army posts and that there could be no grave objection to it.

#### Badge for Soldiers.

Washington, Jan. 14.—General orders issued by the war department announce that by the authority of the president a badge with ribbon will be issued to each officer and enlisted man in the service to whom a certificate of merit has been, or hereafter may be, issued.

#### President Wants Treaties.

Washington, Jan. 14.—The senate has made public the letter of the president sent to the senate Dec. 19, 1904, urging ratification of the arbitration treaties which, Mr. Roosevelt says, "constitute a considerable advance in the direction of the purpose so ardently desired—of the reign of universal peace and good will."

#### Postal Receipts.

Washington, Jan. 14.—The gross postal receipts for the fifty largest postoffices in the country for December, 1904, as compared with December, 1903, show a net increase of about 9 per cent. The highest increase was 22 per cent at Peoria, Ill. The receipts at New York increased almost 6 per cent and Chicago almost 14 per cent.

#### Americans Control Chinese Road.

Washington, Jan. 14.—Sir Chenery

Likang Cheng, the Chinese minister, has recommended his government not to cancel the franchise of the Hankow-Canton railway, as he has been informed that J. Pierpont Morgan and other Americans have bought back their stock in the road. The agitation for canceling the franchise was due to the passing of the road from American control.

#### Warner Is Named.

Washington, Jan. 14.—Representative Vespasian Warner of Illinois has been appointed as commissioner of pensions. Senators Cullom and Hopkins were at the White house, and the president told them that he had decided to give the position to Colonel Warner. Mr. Warner is from the nineteenth district of Illinois. He was re-elected last November for a fifth term in congress.

**The Power of a Humble Life.**  
Not until we know all that God knows can we estimate to the full the power and the sacredness of some one life which may seem the humblest in the world.—John Ruskin.

**Wouldn't You Like To Be In**

**FLORIDA**

Away from this snow and slush and zero weather, with nothing to do here but stay indoors; with everything to do there outdoors in the balmy of weather?

Get aboard the Chicago and Florida Limited leaving Chicago at 1:15 p. m. daily, and you will be in Florida early the next evening—only one night on the road.

Your local ticket agent will make your ticket good, via this line if you request it.
